1	The project budget remains unchanged while the period of the project implementation has been extended.
2	no
5	Not applicable.
6	No.
8	I do not know
10	Equipment (serious procurement issues) Staff claims
12	no
13	I do not think that for the time being it has been the case of some interventions on the budget area of the project. Perhaps, if the situation persists, they can be taken into account.
14	Not to my knowledge.
15	time delays
17	Well, the project is prolonged but the budget does not change. That mean either we (the university) had to finace the sientific stuff by own funds or we had to reduche the number of people working for the project. As an result the process is slowed down, additional funds for project personal due to crisis is needed badly
18	No
20	So far, not
22	No
24	changes to conference dissemination and project over run. Budget has stayed the same, but had to be rolled-over.

5	Sharing global approaches in resolving these boarderless challenges.
6	All objectives can be achieved due to the extension of the project realisation period.
8	slowly all tasks are carried out by partners
12	Most of the project activities ware carried out according to the plan.
13	Based on the online meetings, a good connection was established between the project members, the objectives for the next period were established and each member of the project managed to solve the tasks assigned to him.
15	- Still good cooperation with the partners - Every partner is interested in the success of the project
17	Despite the challanges we proceed
19	We try to work around the limitations
20	Timelines
22	The outcomes may still be achieved by means of virtual tours and online interaction between the members.
23	Activities performed so far, according to the plan
24	the majority of the objectives have been achieved. It is the final dissemination that is now in progress.

1	The project requirements imply one year teaching of the newly developed Master programs. As soon as some of the Master programs have not received the official accreditation, one year teaching will not take place. This gives the EU authorities the right to use financial penalties to the project.
9	We should be able to move forward, even with delayed movement. However, I am not convinced we will meet the deadline.

1	Network establishment
2	exchange of ideas with partners
5	Globalisation of our efforts and learning from international partners as well as local institutes.
6	Possible future co-operation with project's partners. Development of study curricula - on-line course. Sharing knowledge on on-line learning.
8	interesting analyzes and recommendations for SA partner universities and implementation of new study programs
9	By developing a Masters in Engineering Education it broadens the study field within various faculties.
10	Currently, the MEng developed during PEESA I/II is running, and we foresee that also to happen with current MEng in development, which will be a huge contribution.
12	international and multicultural experience
13	The most valuable experience is related to the fact that we managed to create a synergy of a rather heterogeneous group and we had interesting experiences with ideas that can be taken over and capitalized in our organizations.
14	The development of professional masters degrees according to EURACE accreditation criteria, and the capacity building of staff associated with this activity.
15	Continuation of international cooperation
16	Capacity building
17	Internationa network, starting point for other collaboration, cross-effects
19	Improvement of e-learning and bledended learning. Especially during the pandemic thr experiences made during the project helps.
20	On-line courses
21	Knowledge and ideas attained from partner universities
22	The development and addition of new qualifications to the institution's PQM.
23	Internationalisation, development of our programmes, conferences, networking
24	The collegial input and benchmarking and the provision of resources to allow staff to undertake the curriculation and implementation required. It has contributed to the programme composition at the postgraduate level , thereby furthering the development of expertise in the discipline.
